Subject: RE: Tire Crumb Study

Mr. Wright,

At this time I have no new information. After the shutdown is over I will provide a status update.

We will certainly give you a heads up as we approach a release date.

Regards,

DDD

David D. Dunlap
Deputy Assistant Administrator
EPA Office of Research & Development
Personal Matters / Ex. 6 office

Thanks, Turley

I have copied David Dunlap (DAA, ORD) who can keep you updated on this issue.

Hi Troy,

I wanted to flag this issue for you as something that Chairman Pallone has a keen interest in:
<https://www.epa.gov/chemical-research/federal-research-recycled-tire-crumb-used-playing-fields>

He was instrumental in spurring the EPA study through letters he sent to the Administrator and ATSDR on the issue. I have been regularly in touch with Christina Moody in Congressional and she has been very helpful in providing updates, but I'm unsure if she is working during the shutdown. I understand it is unlikely there will be any movement on this during the shutdown, but please keep us informed if the study is approaching release. My last update from Christina indicated that peer review comments were being addressed and the report was nearing public release.

Thanks,
Tuley
